

Industrial Gold Reciprocating Compressors

9-14 hp CA1U Basic Series

- A** A. 3/4 NPT Tank discharge fitting
- B** Easy to read tank pressure gauge
- C** Gas Engine Electric start-(Options of Kohler or Honda) Diesel Engine Electric start-Kohler Diesel
- D** OSHA belt guard
- E** Compressor built with disk and spring valves-allows for day in day out use, no flimsy reed valves to crack or break
- F** Cast iron compressor discharge cooler manifold-allows for additional cooling and reliable day in day out compressor use
- G** Compressor head Unloaders- allows for pump valve cooling when in in compression also saves on fuel cost , by reducing the load on the engine when air demand is low
- H** Cast compressor inner cooler manifold-no flimsy copper pipe to break, allows for reliable day in day out compressor operation
- I** Centrifugal unloader-allows for easier compressor head pressure release, as well as saves fuel and wear and tear on the drive engine
- J** Compressor fork lift slots-allows for easier moving around install of the compressor package
- K** ASME/CRN 200PSI working pressure rated air receiver

No start up kits needed for operation (Units ship factory filled)
