

Industrial Gold Reciprocating Compressors

5-7.5 hp CA1 Basic Series

- A 3/4 npt air outlet-for ease of installation and package maintenance
- B Easy to read tank pressure gauge
- C Centrifugal unloader-allows for more controls and fail safe head pressure bleed down after unit cycle is complete
- D Cast compressor inner cooler manifold-no flimsy copper pipe to break, allows for reliable day in day out compressor operation
- E Disk and spring compressor valves-allows for day in day out use, no flimsy reed valves to crack or break
- F Heavy duty steel compressor intake filter silencer- allows for noise reduction and protection of compressor filter element
- G Cast iron compressor discharge cooler manifold-allows for additional cooling and reliable day in day out compressor use
- H OSHA compressor belt guard-allows for safe use of the compressor system
- I Industrial grade electric motor
- J Common magnetic motor starter mounted and wired-allows for fast installation, ease of use and motor protection, by using a heavy duty reliable contactor
- K Common operational pressure switch-allows for ease of use and reliability in the field.
- L ASME/CRN 200PSI working pressure rated air receiver

No start up kits needed for operation (Units ship factory filled)
