CI5 and CI10 Pump Features

Duplex Compressors

Industrial Gold duplex compressors are designed for redundancy in all situations. The pumps are manufactured for durability and long life. These units feature some of most heavy duty features available for air compressors. All Industrial Gold duplex units feature heavy duty cast iron low RPM pumps, so that they can provide you with the most reliable compressor for your application.

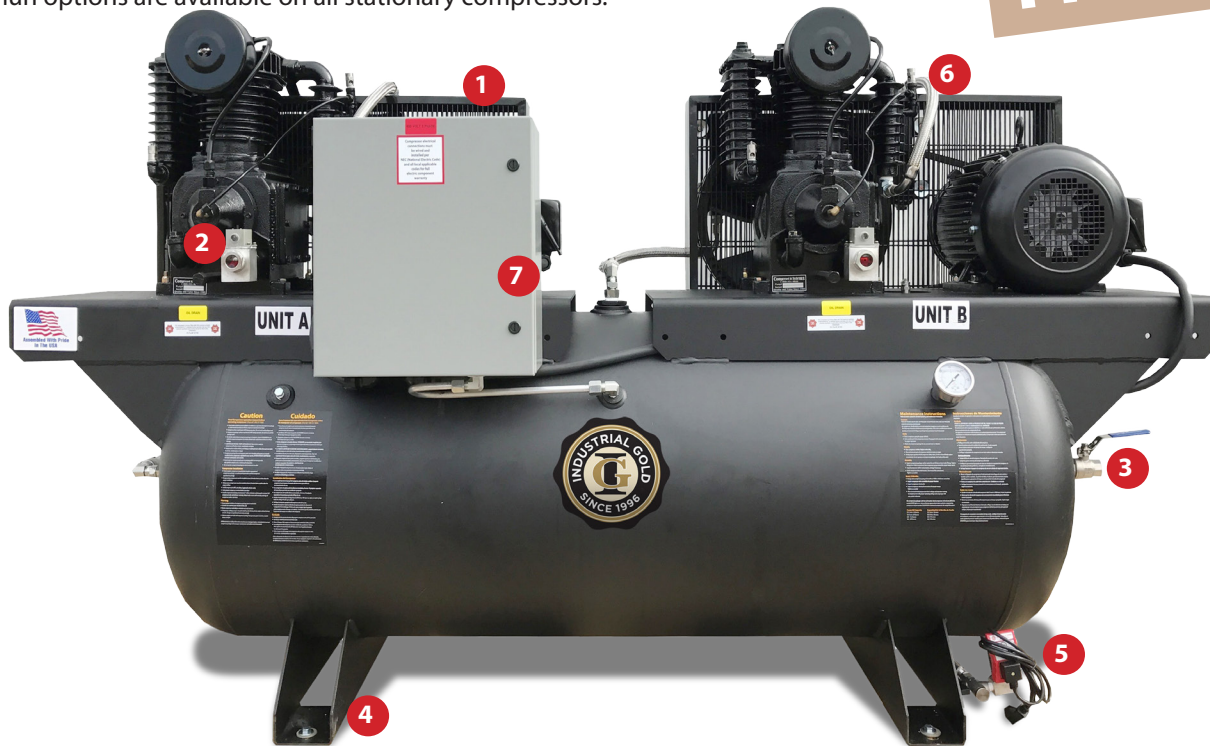

Model	HP	Phase	CFM@175	CFM@100	Tank	Voltage	Combined Amps @ 230 volt	Dimensions

Platinum Series

Duplex Compressors

Industrial Gold Platinum Series compressors feature a unique option package that makes your new compressor simpler to maintain while delivering higher quality air. The Platinum options are available on all stationary compressors.

**FREIGHT
PREPAID**

- 1 Belt guard cooler** delivers air at a much cooler temperature to the receiver. Compressed air that goes into the receiver cool drops more moisture in the receiver. The moisture is then automatically drained from the receiver. That means less equipment damaging moisture is sent into your air lines.*
- 2 Low oil monitor** will help to keep you notified when you need to add oil to the compressor pump.
- 3 Tank discharge ball valve** makes draining fast and easy.

- 4 Vibration isolators** are designed to protect your receiver from damage caused by vibration when the compressor is running.
- 5 Automatic tank drain** will help with the daily tank maintenance so that you don't have to.
- 6 Stainless steel flex lines** for added durability.
- 7 Smart Control** operating system.

* Belt guard cooler not included on 5hp models

Accessories Available for Platinum Units

- Hour meter
- HOA operating switch
- Alternating relay
- Intake silencer
- Dual control constant run
- Rubber mounting pads
- TEFC motor
- Nema 4 control enclosure
- Explosion proof motor
- Explosion proof control enclosure
